Dear Colonel Warndorf,

Many thanks for your kind letter of August 22. It was like a voice calling to me across the gulf of the years. Indeed, I remember Sec V very well, also the trip to the California desert. I also remember the great drive and leadership that you gave to the whole show and how much American Intelligence is indebted to you.

I saw Baer after the War in São Paulo where his parents lived but have lost touch of him since. I travel a good deal and if I get out that way I will call you or if you come to Washington call me. It would be great to get together and compare notes.

P.S. I still don't like beer and I do love wine
W

With Every good Wish
Sincerely,
Dine Walters
